DETAILED ACTION

Response to Amendment

1. Applicant's amendment and accompanying remarks filed 6/21/2010 have been fully considered and entered. Claims 1-8 and 11 are viable. All previously made rejections are now withdrawn in light of Applicant's amendments, remarks and filing of the Terminal Disclaimer.

Terminal Disclaimer

2. The terminal disclaimer filed on 7/12/2010 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of co-pending 10/579923 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: Claims 1-8 and 11 are found allowable for reasons set forth herein below.

With regard to independent claims 1 and 5, there is no known prior art which teach or fairly suggest the limitations of wherein the method for protecting an entity from the effects of an explosion or the like from a barrier and the barrier itself comprising multiple water gel or gelatin layers in which the concentration of the gel or gelatin increases from the outside layer to the inner layer, specifically, as set forth in claim 5.

4. An updated art search did not produce any new substantial art for which to base a rejection and presently no motivation exists to combine references to form an obviousness type rejection.

Art Unit: 1786

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
